

Saline County Health Department Maternal and Child Health

FAQ'S FOR PROVIDERS

Q What services are offered by your department?

*Prenatal blood pressure checks *prenatal education *post-partum home visits

A *breastfeeding support *maternal mental health screens *early childhood development screens.

Q Where does your prenatal class curriculum come from?

Our Becoming a Mom Prenatal Education curriculum is written by the March of Dimes and KDHE.

A Courses are updated annually to reflect current best practice and latest evidence-based research.

Q What do you do at a home visit?

Our Registered Nurse screens for postpartum depression, assesses for and educates about maternal warning signs post birth, inquires about feeding difficulties, educates on and ensures safe sleep conditions, and discuss area resources that may be helpful to new parents.

A Referrals are available in accordance with patient need.

Q Do you charge people for your services?

A There is no charge to the program participants for our services.

Q Do you have to have someone come to your home?

A No. Ideally we like to visit your patient's in their home, but visits can take place via zoom, telephone, or at neutral setting if needed!

Q Are services only for publicly insured or lower income persons?

A No! Our services are available to any Saline (or surrounding) county resident. No income guidelines.

Q Do you refer patients to other providers?

A Referral are made to the Primary Care Provider and additional providers of patient's choice per visit assessment outcomes i.e. mental health screenings.
